Wong Amat Tower

- luxury by design

Since the start of the year, developers Heights Holdings have declared that it is their mission to upgrade their project portfolio and deliver more to their clients.

And, as result of contracting

new, leading Bangkok-based architectural, landscape and interior design teams, they are doing just that.

A spokesman for HH quoted examples of how these teams are impacting on their offerings:

- Park Royal 3 on Pratumnak Soi 6 and Park Royal 2 on Pratumnak Soi 1 both have newly designed, spacious lobbies.

- Park Royal 2 (marketed by official partner Vistas Development) has a stylish new

rooftop sundeck and infinity pool overlooking Pattaya Bay.

- Club Royal, as featured in recent issues, now features outstanding landscape design elements including a 1,000 square metre lagoon pool

complete with cascades, waterslides, Jacuzzi caves, rain curtains and shower domes.

Now HH's new teams have turned their attention to the Wong Amat Tower on Naklua Soi 16 – the company's flagship 38-

storey, high-rise just 50 metres from Wong Amat Bay.

The spokesman said: "With a fantastic location, superb facilities and excellent structural design (not to mention ground-breaking free-standing show

units designed to emulate real views from lower floors of the building) the project is already proving to be a great success on the Pattaya real estate market."

The project is 40 per cent sold out, with the on-site

showroom now dismantled as construction starts.

The pictures on these pages show some of the Wong Amat Tower designs.
